

## **AMENDMENTS TO THE CLAIMS**

- 1.(Original) A cancer metastasis inhibitory composition, which comprises a soybean Kunitz trypsin inhibitor as an active ingredient.
- 2.(Original) The composition according to claim 1, which comprises soybean whey as a source of the soybean Kunitz trypsin inhibitor.
- 3.(Original) The composition according to claim 1, which comprises a trypsin inhibitor concentrate obtained from soybean whey as a source of the soybean Kunitz trypsin inhibitor.
- 4.(Original) The composition according to claim 3, wherein a Bowman-Birk trypsin inhibitor is separated and removed as much as possible from the trypsin inhibitor concentrate obtained from soybean whey.
- 5.(Original) The composition according to claim 1, which is a food product or medicine.
- 6.(Original) The food product according to claim 5, which is a food product with an indication that said food product is intended for use in the prevention or inhibition of cancer metastasis or with an indirect indication equivalent to indicating that said food product is intended for use in the prevention or inhibition of cancer metastasis.
- 7.(Original) A composition for anti-cancer and/or cancer prevention and cancer metastasis inhibition, which is the composition according to claim 1 further comprising an anti-cancer ingredient and/or a cancer preventive ingredient.
- 8.(Original) A combined composition for anti-cancer and/or cancer prevention and cancer metastasis inhibition, which comprises the composition according to claim 1 in combination with

a composition comprising an anti-cancer ingredient and/or a cancer preventive ingredient.

9.(Currently Amended)      ~~Use of a soybean Kunitz trypsin inhibitor in the~~ A method for the  
production of a cancer metastasis inhibitory composition which comprises employing a soybean  
Kunitz trypsin inhibitor therein.
